The new sixth grade class is a wonderful addition to our student body. We are very excited about what we can offer them. Now that the first week is over and they no longer look like deer in headlights, we are confident that it won't take them long to fulfill our expectations. They even look happy!

Our seventh grade students are feeling confident and we will enjoy watching them continue to mature and grow. They are a close group with a personality that is delightful.

The 8th grade are leading with pride. It is such a joy to see them becoming confident young people. They are involved in so much as Oilers that the future looks bright for them as strong high school students.

The middle school staff is the best around. Our students could not be in more capable academic hands. Plus, they care about kids. It will be a great year.

Twitter is a social networking service that allows you to answer the question, "*What are you doing?*" by sending short text messages 140 characters in length, called "tweets", to your friends, or "followers."

Tweets are quick thoughts that I believe are worth sharing . I will post often the information that we believe is important to you and your student.

If you would like to receive text messages on your phone or just check in on us via computer, here is how.

Register for a FREE twitter account from the middle school page at the district website. ([westhardin.org/ms](http://westhardin.org/ms)) If you need assistance, we will be happy to assist you. While registering, you can enter your cell phone number to receive text messages from school.

It is our goal to continue to improve communication with parents and we hope that you find this service beneficial. For that reason, during OPEN HOUSE we will provide registration assistance in Rm 205 (Mrs. Bean).
